

## Microsoft's Strength Test For Your Passwords

Click the Microsoft icon to check how strong some of your account passwords are.

## Chrome Extensions for Productivity

Do you need help staying organized online? Click below for a list of Chrome Extensions for organization and productivity.

## Tech Tip

**If your projector is not displaying, try the shortcut Windows key + P.**

Select "Duplicate."

## Installing a Program from the Network By: Tammy Cage

Teachers and staff have the capability to install programs that are on our network.

- Click the Start button in the lower left hand corner on your Windows desktop.
- In the blank field type "Install." Click "Install a program from the network." The list of programs available for you to install will pop up.
- Click on the program you wish to install.

Please use this process when you want to install a program. Do not try to install a program from the internet as this can potentially result in malware being installed onto your device.
